RESEARCH PROFILE

“Climate scientist and recent Ph.D. specializing in cryosphere processes and regional climate modeling, studying how irrigation, soil moisture, and moisture transport shape hydroclimate and glacier mass balance across High Mountain Asia, from field measurement to numerical model.”

EDUCATION:

Ph.D. in Climatology/Meteorology (Jan 2023 – August 2026)

Department of Earth and Atmospheric Sciences, University of Nebraska-Lincoln.

Dissertation: High-Resolution Modeling of Lowland Irrigation Impacts on Hydroclimate and Glacier Mass Balance in High Mountain Asia

M.S. in Glaciology at Kathmandu University, Nepal (2015)

Thesis: Reconstruction of annual mass balance of Rikha Samba Glacier, Nepal, from 1995 to 2013 using Energy-Mass Balance Model.

B.Sc. in Environmental Science (Hons) at Kathmandu University, Nepal (2013)

WORK EXPERIENCES:

Research Associate/Cryosphere Analyst at ICIMOD (2016-2020/2021-2022)

Led and supported cryosphere research expeditions to 20 high-mountain glaciers for monitoring work, including installing and maintaining automatic weather stations, temperature loggers, and dGPS surveys. Built and managed field databases and helped turn the collected data into published knowledge. Trained scientists from four regional member countries (Afghanistan, Bhutan, India, Pakistan) in field-based glacier monitoring and statistical analysis.

AWARDS:

-
- Outstanding Graduate Award 2024:** Department of Earth and Atmospheric Sciences, University of Nebraska-Lincoln
- The Daugherty Water for Food Global Institute Graduate Research Award for 2024/2025,** University of Nebraska
- Cryosphere Monitoring Project (CMP) funded MS in Glaciology Scholar (2013-2015),** Kathmandu University

RECENT CONFERENCE ATTENDED:

-
- Gurung, T.R.,** and Chen, L. (2026). From Lowlands to Mountains: Irrigation Impacts on South Asian Hydroclimate. Poster presentation at the 136th Annual Meeting of the Nebraska Academy of Sciences (NAS). Lincoln, Nebraska, April 24, 2026.
- Gurung, T.R.,** and Chen, L. (2026). Potential Impacts of Irrigation on Hydroclimatic Variability over High Mountain Asia. Poster presentation at the 106th Annual Meeting of the American Meteorological Society (AMS). Houston, Texas, January 25-29, 2026.
- Gurung, T.R.,** and Chen, L. (2024). High-resolution climate simulations of HMA. Poster presentation at the American Geophysical Union annual meeting (AGU), Washington D.C., December 9-13, 2024.
- Gurung, T.R.** and Chen, L. 2023: Understanding the Influence of Soil Moisture on Heatwave Characteristics in the United States, AGU Fall Meeting, San Francisco, December 11-15, 2023.
- Gurung, T.R.,** Steiner, J.S., Sherpa, T.C., and Joshi, S.P. 2023: Mass and Energy Balance of two Himalayan glaciers, Central Himalaya, NAS Annual Meeting, Lincoln, April 21, 2023.

RECENT TRAINING PARTICIPATED IN:

-
- | | |
|------------------|---|
| April 7-9, 2025 | MPAS-Atmosphere Tutorial, NCAR (virtual). |
| July 17-21, 2023 | WRF tutorial summer 2023, NCAR. |

June 07-11, 2021 Spatial and temporal climate change analysis using CORDEX regional climate models over South Asia, ICIMOD.

SKILLS:

Coding & Analysis	R, Python, MATLAB, and GIS, GitHub, Linux-based environments, High-performance computing (HPC)
Modeling	Weather and Research Forecasting (WRF), Model for Prediction Across Scales (MPAS), Community Earth System Model (CESM), Energy Mass Balance Glacier Model, Noah-MP Land Surface Model
Machine Learning	Scikit-learn, statistical learning methods, time-series analysis, causal inference frameworks, neural network fundamentals
Data & Publishing	NetCDF, HDF5, ERA5/reanalysis products, LaTeX, MS Office
Field monitoring	Installation and maintenance of automatic weather stations, rain gauges, dGPS surveying, temperature loggers, surface radiation measurement systems
Language	Nepali (native), English (Fluent), Hindi (Excellent), Urdu (Good)

PUBLIC ENGAGEMENT

Summer 2025	Volunteer, UNL Earth and Atmospheric Sciences outreach events for elementary schools
Winter 2023 and 2024	Volunteer, Dinosaurs & Disasters, University of Nebraska State Museum

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS

American Geophysical Union
American Meteorological Society
Nebraska Academy of Sciences
European Geophysical Union

LEADERSHIP

President 2025/2026, Nepalese Students Association (NSA) at the University of Nebraska-Lincoln

PODCAST

University of Nebraska - Daugherty Water for Food Podcast on [The Cryosphere and Food & Water Security](#)
